

Final Announcement:

Impact of COVID-19 on clinical trials

Wednesday May 6, 2020, 10-12 am

Virtual Seminar

The COVID-19 pandemic hits not only societies around the world hard but also clinical trials. Trials are affected to a different degree, depending on the indication, site location, and trial stage. For some trials, the impact can be substantial. Therefore, it is time to talk about this impact and mitigation steps.

This will be the first virtual seminar organized by the BBS, so it is a bit of an experiment still, especially for the panel discussion. Further virtual events on COVID-19 and other topics are planned in the near future.

Program

10:00-10:05	Welcome Hans Ulrich Burger, BBS president
10:05-10:35	EMA perspective and guidance on COVID-19 Frank Pétavy, EMA
